ST. JOHNS COUNTY
RESOLUTION NUMBER 2006-52

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF ST. JOHNS COUNTY, STATE OF FLORIDA, MODIFYING THE BARTRAM PARK DRI DEVELOPMENT ORDER AS PREVIOUSLY APPROVED BY ST. JOHNS COUNTY ON SEPTEMBER 19, 2000, UNDER RESOLUTION 2000-139 AND PREVIOUSLY MODIFIED BY RESOLUTION 2001-93, APPROVED MAY 8, 2001; RESOLUTION 2005-146, APPROVED JUNE 1, 2005; FINDING THE MODIFICATION DOES NOT CONSTITUTE A SUBSTANTIAL DEVIATION; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, Bartram Park, LTD, Bartram Investments, LLC, and Winslow Farms, Ltd., have submitted a Notice of Proposed Change (NOPC) to the Bartram Park Development of Regional Impact (DRI) dated June 2, 2005, requesting modification to the Development Order Special Condition (24), Master Plan Map H and Chart, and Special Condition (13) of the Development Order (the “Notice of Proposed Change”); and

WHEREAS, the Developer submits that the changes proposed in the NOPC do not constitute a substantial deviation pursuant to the terms of Section 380.06(19) of the Florida Statutes and the Developer has provided evidence that such changes do not constitute a substantial deviation under any provision of Section 380.06 (19) of the Florida Statutes; and

WHEREAS, the Board of County Commissioners has reviewed the NOPC and considered the evidence presented and whether the proposed modification constitutes a substantial deviation to the DRI requiring further DRI review at a public hearing held January 21st, 2006, after required notice.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF ST. JOHNS COUNTY, FLORIDA:

1. The following facts and conclusions of law are established by clear and convincing evidence to support this Resolution:

   a. The requested changes to not constitute a substantial deviation pursuant to the terms of Section 380.06(19) of the Florida Statutes because there is no change in either the development rights or increase in impacts from those approved Bartram Park DRI Development Order.

   b. The changes requested in the NOPC area consistent with the Land Development Code of St. Johns County, as amended.

   c. The changes requested in the NOPC are consistent with and further the objectives of the St. Johns County Comprehensive Plan 2015.

2. The Bartram Park DRI Development Order, Special Condition (24) is hereby modified by approval of the following specified changes:

   A) Special Condition (24) Racetrack Road is hereby amended to read as follows:

   24. Racetrack Road.
(1) Add as last sentence of this paragraph:

St. Johns County agrees to acquire at its cost lands in St. Johns County needed to obtain sufficient right of way in excess the 133 feet of right of way plus 6.83 acres for stormwater ponds to be contributed by Applicant ("Required Right of Way") in order to widen Racetrack Road from the East Spine Road of Bartram Park to Russell Sampson Road and construct stormwater ponds.

(2) Delete existing language and replace with the following:

Construction for the final segment of Bartram Park Blvd. from its existing terminus to Racetrack Road shall be commenced on or before June 2006 and completed no later than June 2007. On or before February 2008, or as soon as sufficient land for right of way and stormwater ponds has been acquired by the County, whichever is later, Developer shall commence construction of the four-laning of Racetrack Road from Russell Sampson Road to the East Spine Road including the I-95 bridge/ flyover. Construction shall be completed within twenty months of commencement.

(3) Delete existing language and replace with the following:

The developer shall receive a credit against the proportionate share of $11,161,335, consisting of $8,161,335 for construction of both improvements to Racetrack Road and $3,000,000 for right of way contribution. If the substantiated total is less than $13,538,645 ($11,161,335 plus $2,377,310 which is the cost of widening Racetrack Road fro the east Spine Road to U.S.1), Developer will pay the difference in cash in year 2000 dollars to either the City of Jacksonville or St. Johns County as fulfillment of this condition. Provided, however, if at the time of payment for this improvement, the cost including the value of the right of way is greater than $13,538,645, Developer shall have the right in subsequent changes to the Development Order to request credit for the difference in the estimated cost and actual cost against the Additional Transportation Contribution. The improvements to Racetrack Road and The donation of Racetrack Road right of way shall be deemed to satisfy all DRI transportation mitigation requirement of ST. Johns County.

B) **Phasing: General Condition 3**

3. **Phasing, Buildout and Expiration of DRI.** The phasing schedule of this portion of the DRI is revised as follows:

C) **Master Development Plan and Chart**

The Master Plan, Map H and Chart as depicted in Exhibit D in the Development Order are replaced by Master Plan, Map H, dated 5-02-05 and Chart dated March 4, 2005.

All other language in this section remains unchanged.

D) **Special Condition 13** is hereby amended to read as follows:
“The Sale of the Preserve Property as described above pursuant to the conditions of the Agreement of Purchase and Sale between Applicant and the St. Johns River Water Management District shall serve as mitigation for impacts to sixteen (16) acres of wetlands within the DRI, either in Duval or St. Johns County. Any further wetlands impacts shall not exceed 200 acres total for the entire DRI (including 16 acres which have already been mitigated); provided, however, that up to 7.67 acres of additional impacts (above 200) may be located within Bartram Parcel 45. The limit of wetland impacts shall apply only to the improvements within the Bartram Park DRI boundary and shall not include wetland impacts, if any, associated with the widening of Racetrack Road or construction of the canoe launch site. Wetland impacts will be mitigated through the regulatory permitting process. Wetland impacts in St. Johns County shall not exceed ten (10) acres including wetland impacts associated with the widening of Racetrack Road or construction of the canoe launch site.”

3. Except as modified by this Resolution, the existing Bartram Park DRI Development Order shall remain in full force and effect.

4. A certified copy of this resolution, complete with all exhibits, shall be rendered by St. Johns County within ten (10) days of its adoption by certified mail, return receipt requested to the Developer, the Florida Department of Community Affairs, and the Northeast Florida regional Council.

5. This Resolution shall take effect upon its adoption.

PASSED AND APPROVED BY THE BOARD OF COUNTY COMMISSIONERS OF ST. JOHNS COUNTY, FLORIDA THIS 21ST DAY OF JANUARY 2006.

February,

BOARD OF COUNTY COMMISSIONERS
OF ST. JOHNS COUNTY, FLORIDA

James Bryant, Chairman

ATTEST: Cheryl Strickland, Clerk

By: [Signature] Deputy Clerk

RENDITION DATE 2-23-06
LET IT BE KNOWN that, pursuant to Section 380.06 of the Florida Statutes, the St. Johns County Board of County Commissioners has heard at a public hearing convened on September 19, 2000 the Application for Development Approval for Bartram Park, Ltd. (hereinafter referred to as Applicant and/or Developer), which consists of 2,644.95 acres described in Exhibit A attached hereto, 128.32 acres of which are in St. Johns County described on Exhibit B attached hereto, the balance of which consisting of 2516.63 acres are in Duval County as described on Exhibit C attached hereto, to be developed in the manner described in the Application dated July 19, 1999, Supplemental Information dated August 16, 1999 and First and Second Responses for Additional Information dated December 7, 1999 and February 17, 2000 (hereinafter “Bartram Park” or the “Development”); and

WHEREAS, the Board of County Commissioners of St. Johns County has considered the report and recommendations of the Northeast Florida Regional Planning Council, the St. Johns County staff, the documents and comments upon the record made before the St. Johns County Board of County Commissioners; and

WHEREAS, the Bartram Park Development of Regional Impact (DRI) is a proposed mixed use development located at 1-95 and Racetrack Road on approximately 2,644.95 acres, 128.32 acres of which are in St. Johns County, Florida; and

WHEREAS, the Applicant filed an Application for Development Approval dated July 19, 1999 (ADA), pursuant to Section 380.06, Florida Statutes (F.S.) , for the Bartram Park DRI
on certain real property more specifically described in the attached Exhibit A, (the "DRI Property"); and

**WHEREAS**, Warren A. Weiss, Trustee of the Marital Trust u/w/o Joseph Applebaum and Gran Central Corporation are the owners of the DRI Property and have duly authorized the Applicant to file the ADA and obtain a Development Order for the DRI Property; and

**WHEREAS**, the authorized agent for the Applicant is J. Thomas Dodson, Jr., 13361 Atlantic Boulevard, Jacksonville, Florida 32225, and

**WHEREAS**, the Applicant has duly provided complete copies of the ADA and all information for a sufficiency response to the Florida Department of Community Affairs, Northeast Florida Regional Planning Council, and St. Johns County; and

**WHEREAS**, the proposed DRI does require an amendment to the County’s Comprehensive Plan; and

**WHEREAS**, an amendment to the County’s Comprehensive Plan is being approved simultaneously with the adoption of this Resolution;

**WHEREAS**, the ADA was reviewed by the Northeast Florida Regional Planning Council as required by Section 380.06, F.S. (1999), and the Council recommended that the Application be approved, with conditions as set forth in the Assessment Report for Bartram Park DRI dated July 6, 2000; and

**WHEREAS**, the St. Johns County Board of County Commissioners has duly noticed and on September 19, 2000 held a public hearing on the application as required by section 380.06, F.S., and afforded the public and all affected parties an opportunity to be heard and to present evidence; and
WHEREAS, implementation of the Master Plan for Bartram Park as depicted on Exhibit D attached hereto as a mixed use development which will offer a variety of residential options with the ability to live, work, shop, and recreate in a distinct residential neighborhood or village/town center configuration utilizing employment opportunities within the DRI while maximizing access linkages throughout the development to limit as much as possible the necessity to travel outside the DRI; and

WHEREAS, the proposed development will be compatible with and sensitive to the Julington Durbin preserve adjacent to the DRI;

WHEREAS, the Developer is seeking to provide a high quality of life for families, employees and consumers within the DRI while protecting the beauty and benefit of the natural characteristics of the property and the adjacent preserve for future generations;

FINDINGS OF FACT AND CONCLUSIONS OF LAW

The proposed DRI is not in an area designated as an Area of Critical State Concern pursuant to the provisions of Section 380.05, F.S.

The proposed DRI is located in Duval and St. Johns Counties and is subject to a separate comprehensive plan amendment, DRI Development Order and PUD rezoning, all of which are to be approved at or about the same time for both counties and each of which will be administered by the respective county for that portion of the DRI located in that county.

The proposed DRI is consistent with the State Comprehensive Plan.

The proposed DRI is consistent with the Strategic Regional Policy Plan adopted by the Northeast Florida Regional Planning Council.

The proposed DRI is consistent with the St. Johns County Comprehensive Plan 1990-2005 and St. Johns County land development regulations.
The proposed DRI is consistent with the Assessment Report and Recommendations of the Northeast Florida Regional Planning Council issued pursuant to Section 380.06, F.S.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of St. Johns County, Florida, in public hearing duly constituted and assembled on __________, 2000 that the Application for Development Approval for that portion of the Bartram Park DRI located in St. Johns County is hereby approved, subject to the following terms and conditions:

GENERAL CONDITIONS

1. Application For Development Approval. The DRI shall be developed in accordance with the information, plans and commitments contained in (1) the Bartram Park DRI ADA dated July 19, 1999, (2) the First and Second Sufficiency Responses dated December 7, 1999 and February 17, 2000, submitted by the Applicant as part of the DRI review prior to adoption of this Development Order, all of which are incorporated by reference except to the extent of any conflict with the express terms of the conditions of the Bartram Park DRI Development Order ("Development Order"). In the event of any conflict, the terms and conditions of the Development Order shall govern.

2. Land Use Totals. The DRI may be developed with the following improvements: 67.26 acres and 374,084 square feet of retail, 4.82 acres and 44,830 square feet of office use, 3.02 acres of Community Facilities including a fire station and other county uses, 4.77 acres of Infrastructure not including Racetrack Rd. right of way and 48.45 acres of Open Space. The Developer may increase retail square footages and simultaneously decrease office square footage without filing a Notice of Proposed Change provided that such changes are consistent with the Land Use Exchange Table attached as Exhibit E. Additional development which is located in
Duval County is being approved by separate Development Order by the City Council of the City of Jacksonville, Florida.

(1) At the time of election of a land use trade-off a under the Land Use Exchange Table, the Applicant shall notify the Department of Community Affairs (DCA) and the Northeast Florida Regional Planning Council (NEFRPC) of the election and shall provide DCA, the County and NEFRPC with cumulative land use totals and remaining allowable quantities. Written notice of the trade-off election shall be given to the DCA and NEFRPC at least 30 days before the local government hearing or meeting for approval of the proposed trade-off.

(2) The Developer agrees to apply the conversion factor in such a manner that the result after application of the conversion factor will be no less than the minimum square footage and no more than the maximum square footage set forth below for each land use:

<table>
<thead>
<tr>
<th>Land Use</th>
<th>Minimum</th>

<td>400,000 square feet</td>
</tr>
<tr>
<td>Office</td>
<td>30,000 square feet</td>
<td>600,000 square feet</td>
</tr>
</tbody>
</table>

(3) So long as the trade-off is consistent with the criteria contained herein and no change is made to the Master Plan, Map H, no additional DRI approvals shall be required for the trade-off. Trade-off elections shall be reported annually as provided below.

3. **Phasing, Buildout and Expiration of DRI.** The DRI in St. Johns County shall be developed as follows:

Notwithstanding the foregoing, no vertical development will occur in St. Johns County prior to January 1, 2005. Physical development of the DRI shall commence within three (3) years of the effective date of this Development Order; however, this time period shall be tolled during the period of any appeal pursuant to Section 380.07, F.S., or during the pendency of administrative or judicial proceedings relating to development permits. Commencement of physical development in Duval County shall be deemed to be commencement of physical development in St. Johns County. The projected buildout date for all development is December 31, 2015. The DRI termination and DRI Development Order expiration dates are established as December 31, 2020.

2. The Master Plan, Map H, as depicted in Exhibit D in the Development Order is revised as depicted at Exhibit A attached dated April 21, 2000.

Physical development of the DRI shall commence within three (3) years of the effective date of this Development Order; however, this time period shall be tolled during the period of any appeal pursuant to Section 380.07, F.S., or during the pendency of administrative or judicial proceedings relating to development permits. Commencement of physical development in Duval County shall be deemed to be commencement of physical development in St. Johns County. The
projected buildout date for all development is December 31, 2015. The DRI termination and
DRI Development Order expiration dates are established as December 31, 2020.

4. **Effective Date.** The Development Order shall take effect upon transmittal to the
Department of Community Affairs, the Northeast Florida Regional Planning Council and the
Developer in accordance with Rule 9J-2.025(5) F.A.C. and Subsection 380.07(2), Florida
Statutes.

5. **Monitoring Official.** The Director of Planning of St. Johns County, Florida,
shall be the local official responsible for interpretation of the DRI as relates to any portion
located in St. Johns County. Interpretation of the DRI as relates to any portion located Duval
County shall be the Director of Planning and Development, City of Jacksonville, Florida.

6. **Downzoning Protection.** The Bartram Park DPI as approved in this
Development Order shall not be subject to downzoning or reduction of approved land uses
before December 31, 2020, unless the Applicant consents to such change or St. Johns County
demonstrates that substantial changes in the conditions underlying the approval of this
Development Order have occurred, or that the Development Order was based on substantially
inaccurate information provided by the Applicant, or that the change is clearly established by St.
Johns County to be essential to the public health, safety and welfare.

7. **Election Regarding Environmental Rules.** Pursuant to Section 380.06(5)(c),
F.S. (1999), the Developer has elected to be bound by the rules adopted pursuant to Chapters 373
and 403 in effect as of the date of this Development Order, including, but not limited to, the
provisions of Section 373.414(13), F.S. (1999). Such rules shall be applicable to all application
for permits pursuant to those chapters which are necessary for and consistent with the
development authorized in this Development Order, except that a later adopted rule shall be
applicable to an application if:

(1) the later adopted rule is determined by the rule adopting agency to be
essential to the public health, safety, or welfare; or

(2) the later adopted rule is adopted pursuant to §403.061(27), F.S.; or

(3) the later adopted rule is being adopted pursuant to a subsequent enacted
statutorily mandated program; or

(4) the later adopted rule is mandated in order for the state to maintain
delegation of a federal program; or

(5) the later adopted rule is required by state or federal law.

Further, to qualify for the benefits of this provision, the application must be filed within
five (5) years from the issuance of this Development Order and the permit shall not be effective
for more than eight (8) years from the issuance of this Development Order. Nothing in this
paragraph shall be construed to alter or change any permitting agency’s authority to approve
permits or to determine applicable criteria for longer periods of time.

8. **Level of Service Standards.** The Applicant shall be required to meet the adopted
level of service standards in the St. Johns County Comprehensive Plan and the requirements of
the County’s concurrency management system unless such requirements conflict with the ability
to offset traffic impacts by paying the proportionate share as permitted by Florida Statutes 163.3180
(12) (1999) if authorized in a comprehensive plan amendment by St. Johns County. If the provisions
of F. S. 163.3180 (12) are authorized by the Board of County Commissioners in a comprehensive
plan amendment, the provisions of F. S. 163.3180 (12) shall be deemed to meet the provisions of the
county’s concurrency management system (Land Development Code Article 11). This DRI is deemed to be a Multi Use DRI meeting the statutory provisions of F. S. 163.3180 (12).

9. **Annual Reporting.** The Applicant or its successors or assigns, shall submit an annual report on each anniversary date of the adoption of this Development Order, beginning June 1, 2001, until the completion of the DRI. The report shall be submitted to St. Johns County, Duval County, the Northeast Florida Regional Planning Council, Florida Department of Community Affairs, the Northeast District of the Florida Department of Environmental Protection, St. Johns River Water Management District, Florida Game and Fresh Water Fish Commission, and any other affected permit agencies. Form RPM-BSP-ANNUAL REPORT-1 of the Florida Department of Community Affairs, as amended from time to time, may be used for the format of this report. In accordance with Section 380.06(18), F.S. (1999), failure to file an annual report in a timely manner may result in the temporary suspension of this Development Order. The annual report shall address the following:

1. A description of any changes made in the plan of development, phasing, or in representations contained in the ADA since the date of adoption of this Development Order, any use of the Land Use Exchange Table and any actions taken by the local government to address these changes. Copies of any approvals taken to address changes including copies of any revised master plans not previously submitted will be attached to the Monitoring Report.

2. A summary comparison of development activity proposed or conducted since the previous monitoring report and activity projected for that period until submittal of the next regular monitoring report. The summary will include: a description of site improvements, gross floor area constructed by land use type, location, and phase, with appropriate maps. A
tabulation of the amount of acreage developed in the reporting period shall be provided by land
use categories listed in Chapter 28-24, F.A.C.

(3) An identification of the name of the purchaser of any undeveloped tracts
of land in the Bartram Park DRI, including the location and size of the tracts purchased, and the
amount of development rights allocated to the purchaser, with map(s) which show the parcel(s)
or subparcel(s) acquired.

(4) A cumulative summary of all development that has taken place within the
Bartram Park DRI by the land use categories listed in Chapter 28-24, F.A.C. including gross
floor areas constructed by land use type and location, together with a cumulative summary of
location, size (acreage), development rights purchased (land use type and square footage), and
the name of the purchaser of all parcels purchased within the Bartram Park DRI.

(5) To the extent known to Applicant, a description of any lands purchased or
optioned within one mile of the boundaries of the Bartram Park DRI by a person who has
acquired a fee simple or lesser interest in the Bartram Park DRI subsequent to issuance of the
Development Order (but excluding persons who have only acquired a leasehold interest in lands
or improvements within the Bartram Park DRI), identifying such land, its size, and its intended
use on a site plan and map.

(6) A listing of any substantial local, state, and federal permits, which were
obtained, applied for, or denied, during this reporting period, specifying the agency, type of
permit, parcel, location(s), and activity for each permit.

(7) A description of any moratorium imposed by a regulatory agency on
development within the Bartram Park DRI, specifying the type of moratorium, duration, cause,
and remedy.
(8) Provide an analysis demonstrating there will be sufficient capacity of potable water, wastewater, and solid waste facilities serving the Bartram Park DRI for the anticipated development for the ensuing report period.

(9) Provide an assessment of Applicant's, Applicant's successor, if any, and local government's compliance with conditions and commitments contained in the Development Order.

(10) A description of any change to the previously reported stormwater plans, design criteria, or planting and maintenance programs.

(11) A description of any known incremental DRI applications for development approval or requests for a substantial deviation that were filed in the reporting year and to be filed during the next reporting year.

(12) A description of any change in local government jurisdiction for any portion of the development since the Development Order was issued.

(13) Copies of monitoring reports completed during the previous year on the created wetlands and stormwater/wetland systems as required by permitting agencies.

(14) Traffic reports, which shall be submitted to the Florida Department of Transportation ("FDOT") District Urban Office in Jacksonville, as well as to the Jacksonville Planning and Development Department, Jacksonville Metropolitan Planning Organization ("MPO"), St. Johns County Planning Department, NEFRPC, and DCA. The first traffic report shall be due concurrently with the first regular Monitoring Report and then annually thereafter until project buildout, unless otherwise specified by the NEFRPC. The following information shall be included:
(1) A description of current development by land use, type, location, and amount of square footage, along with the proposed construction schedule for the ensuing 12 month period, and appropriate maps.

(2) Traffic counts, turning movements, and levels of service actual for the past 12 months and projected for the ensuing 12 months, including traffic estimates for the following roads, including intersections. Applicant shall distinguish between project-related traffic and total traffic volumes:

- St. Augustine Road:
  west of the project entrance
  project entrance to 1-95
  1-95 to U.S. 1

- Racetrack Road:
  Russell Sampson Road to Bartram Parkway
  Bartram Parkway to U.S. 1

- U. S. 1:
  south of Racetrack Road
  Racetrack Road to St. Augustine Road
  north of St. Augustine Road

  1-95: north of St. Augustine Road

Note: Actual FDOT, City of Jacksonville, or St. Johns County traffic counts shall be used where possible. If actual FDOT, City or County
counts are not available for a particular road or intersection, Applicant shall retain, at his expense, a traffic engineering firm to collect the necessary counts. FDOT seasonal adjustment factors shall be used when adjusting traffic counts.

(15) A description of any new and/or improved roadways, traffic control devices or other transportation facility improvements to be constructed or provided by Applicant or governmental entity to accommodate the total existing and anticipated traffic demands.

(16) The monitoring reports will determine if air quality monitoring is warranted pursuant to the FDEP Guidelines for Indirect Sources.

(17) A statement certifying that the NEFRPC, DCA, the City of Jacksonville, and St. Johns County and all affected agencies have been sent copies of the Monitoring Report in conformance with Subsections 380.06(15) and (18), F.S. Applicant shall ensure that all appropriate agencies receive a copy of the Annual Monitoring Reports.

(18) The Director of Planning of the St. Johns County Growth Management Services Department shall be the local official responsible for monitoring the development in St. Johns County for compliance by the Applicant with the Development Order.

10. **Notice of Adoption.** Notice of the adoption of this Development Order or any subsequent amendment to it shall be recorded by the Applicant in accordance with Sections 28.222 and 380.06(15)(f), F.S. (1999), with the Clerk of the Circuit Court of St. Johns County, Florida. Recordation of this notice shall not constitute or provide actual or constructive notice of a lien, cloud or encumbrance of the DRI Property. The conditions of this Development Order shall run with the land and bind the successors and assigns of the Applicant on the DRI Property.
11. **Application For Proposed Changes.** The Applicant shall submit simultaneously to St. Johns County, the Northeast Florida Regional Planning Council and Florida Department of Community Affairs any applications for proposed changes to the DRI and shall comply with the requirements of Section 380.06(19), F.S. (1999), concerning substantial deviations.

Applications filed which propose changes only to the Development Order conditions within St. Johns County and which only (a) change the location and/or density of land uses; (b) affect the required mitigation for impacts other than transportation impacts; and/or (c) qualify as a nonsubstantial deviation under section 380.06(19)(e)2; are not required to be reviewed by the City of Jacksonville ("City"). Similarly, applications filed which propose changes only to the Development Order conditions within the City and which only (a) change the location and/or density of land uses; (b) affect the required mitigation for impacts other than transportation impacts; and/or (c) qualify as a nonsubstantial deviation under section 380.06(19)(e)2; are not required to be reviewed by the County. Any other proposed changes shall be reviewed by the City and the County. Further, any proposed changes determined by the reviewing local government or deemed by the Developer to constitute a substantial deviation from this Development order shall be reviewed by the City and the County. The City and the County shall provide to one another fifteen (15) days prior written notice of any final action to be taken by them with respect to requested modification to this Development Order. All resolutions adopted by the County and the City amending this Development Order shall be forwarded to the other local governments' Planning Departments coincident with transmittal to the DCA, the NEFRPC, and the Developer. Notwithstanding anything contained herein to the contrary, the failure of any local government to meet the time frames set forth herein for transmittal of information to another local government shall not constitute a breach or default by the Owner or
Developer as to the terms and conditions of this Development Order nor impact the validity of any modification approved by the reviewing local government. Nothing contained herein shall modify the right of review of the DCA as to any modifications of this Development Order pursuant to section 380.06(19).

12. **Limitation of Approval.** The approval granted by this Development shall not be construed to obviate the duty of the Applicant to comply with all other applicable local or state permitting procedures.

**SPECIAL CONDITIONS**

**Wetlands Impacts and Wetland/Upland Buffers.**

13. **Wetland Impacts.** The Sale of the Preserve Property as described above pursuant to the conditions of the Agreement of Purchase and Sale between Applicant and the St. Johns River Water Management District shall serve as mitigation for impacts to sixteen (16) acres of wetlands within the DRI, either in Duval or St. Johns County. Any further wetlands impacts shall not exceed 200 acres total for the entire DRI, including the 16 acres which have already been mitigated, provided, however, that up to 7.67 acres of additional impact (above 200) may be located within Bartram Parcel 45. The limit of wetland impacts shall apply only to the improvements within the Bartram Park DRI boundary and shall not include wetland impacts, if any, associated with the widening of Racetrack Road or construction of the canoe launch site. Wetland impacts will be mitigated through the regulatory permitting process. Wetland impacts in St. Johns County shall not exceed ten (10) acres not including any wetland impacts associated with the widening of Racetrack Road or construction of the canoe launch site. Any wetland impact in St. Johns County shall comply with the St. Johns County Comprehensive Plan and the St. Johns County Land Development Code. The wetland impacts may or may not be contiguous.
to one another. Any mitigation required for the additional wetland impacts of up to 84 acres shall be negotiated with the applicable agencies as a part of the permitting process. No development activities, as defined in Section 380.04, F.S., except for activities permitted by the appropriate environmental permitting agencies, shall be allowed in any of the wetland areas within the DRI. Wetland impacts will be mitigated through the regulatory permitting process.

14. **Wetland Buffers**

(1) A minimum undisturbed 25-foot upland buffer measured landward from the SJRWMD jurisdictional line will be maintained around all wetlands with the exception of road crossings and other impacted areas as approved by the SJRWMD. All land development code requirements of St. Johns County will be followed.

(2) A fifty (50) foot natural vegetative buffer will be provided along all wetlands adjacent to the Durbin Creek floodplain measured landward from the SJRWMD jurisdictional line.

(3) Wetland Crossing--An elevated bridge or some other crossing, as permitted by the St. Johns River Water Management District, shall be used to accommodate wildlife movement at Corkland Branch, a tributary of Durbin Creek.

**Floodplain.**

It is intended that no development will occur within the 100-year floodplain as determined on the FEMA floodplain maps, other than road crossings and very small amounts of development. Any road crossings or development within the 100 year floodplain will be elevated or flood-proofed to a height that is at a minimum two (2) feet above the base flood elevation of the 100 year floodplain NGVD- 1929.
Water and Sewer Supply.

15. Development within the Project shall occur concurrent with the provision of adequate central potable water and sewer supply meeting the adopted level of service in the St. Johns County Comprehensive Plan. Central water and sewer supply shall be provided by the City of Jacksonville, Jacksonville Electric Authority ("City"). Pursuant to the terms of the Agreement of Purchase and Sale, the City shall at its expense, construct the infrastructure necessary to bring potable water, sanitary sewer, and electric utilities along Racetrack Road to Bartram Parkway (the southern end of the north-south connector road west of 1-95) within twelve (12) months from the effective date of this Resolution. No septic tanks shall be constructed on the site. Temporary surface tanks may be used to provide sewer service to construction and marketing trailers until central sewer lines are installed.

16. Landscaped areas and other non-residential areas will be irrigated first with available stormwater until reclaimed wastewater is available on site, then such reclaimed water shall be used immediately upon availability at the site. Surficial water wells may only be used as an emergency back-up to these sources, as such use is permitted by the SJRWMD. Residential irrigation will first use reclaimed water, if found economically feasible, when available to the site, with stormwater as the backup source and groundwater used only as an emergency backup. The applicant shall Conduct a feasibility study to determine the economic feasibility of reuse for residential irrigation. If determined to be economically feasible by JEA and based upon review comments by the SJRWMD, as an interim measure and until reclaimed water is available, the applicant will construct a residential and non-residential irrigation system. This system shall be constructed to reuse standards to allow for initial use of appropriate groundwater sources and for later conversion to allow for use of reclaimed wastewater, when available.
17. Water conservation strategies, including xeriscape landscaping techniques and low-flow plumbing fixtures shall be incorporated into the construction, operation, and maintenance phases of the development, and shall be included in the covenants and deed restrictions. These conservation strategies will include the following:

(1) Drought-tolerant and xeriscape vegetation principles issued by SJRWMD shall be applied in all landscaped areas. The applicant shall strive for 50% such vegetation as economically and practically feasible. Landscaped areas include turf, planted vegetation, and mulch, however they do not include hardscaped areas.

(2) The Applicant shall provide xeriscape/drought-tolerant literature to all future developers and residents.

(3) Utilization of only slow-release granular or organic fertilizers within common areas. All builders and property buyers will be encouraged to use xeriscape landscaping within Bartram Park and will be provided with a suggested plant list, design recommendations, maintenance and description of the xeriscape principles. The architectural review board will review all landscape plans and builder/buyer landscape options for all residential and commercial uses for utilization of such principles.

(4) The use of private irrigation wells in areas where reuse will be available is prohibited.

(5) Rain-sensors will be required for all outside irrigation.

18. Prior to site clearing or construction, the Applicant shall review SJRWVID and the County's records for all recorded water wells on the DRI property and shall survey the property for existing water wells. The Applicant shall immediately report the location, depth, and diameter for each of the existing ground water wells on the property to SJRWMD and the
County for their records. All other existing ground water wells and all wells discovered during the development process shall be reported immediately to the SJRWMD and the County. Floridian Aquifer wells that do not fall within the SJRWMD’s specific consumptive use permitting (CUP) requirements for nonpotable water use throughout the development are prohibited. This prohibition will be included in deed restrictions of future individual property owners. Any abandoned wells discovered prior to or during development shall be properly plugged and abandoned in accordance with SJRWMD regulations. To the extent available, the following information should be included for each well:

1. Owner or tenant using the well
2. Location of the well
3. Well contractor who constructed the well
4. Date of well construction
5. Use of the well
6. Status of the well (is it currently in use?)
7. Well casing diameter(s), depths and total depth of the well
8. Does the well free-flow or does it require pumping to remove the water from the ground

19. A Surface Water Quality Monitoring Plan reflected as Exhibit F shall be followed for the proposed development. The Surface Water Quality Monitoring Program (“SWQMP”) must be approved by the Northeast District office of the DEP and shall include sites on all waterways that are connected to Florida waters. The SWQMP will be implemented on site prior to initiating construction activities to ensure adequate data collection for establishment of background conditions. All background data will be submitted to FDEP prior
to initiation of any construction activities. Monitoring data prepared in accordance with the monitoring program shall be summarized in the DRI monitoring report. If the monitoring program indicates violations of the State of Florida Water Quality Standards, in the receiving waters of the State caused by activities in the development, the applicant shall take actions to meet State standards within a reasonable time frame. The actions required addressing the identified exceedence and the time frame for implementation of the action shall be agreed upon by the NEFRPC, FDEP, and SJRWMD. Failure to implement the agreed upon action in the time frame identified will be a violation of this condition.

20. To protect the water quality of the wetlands associated with Durbin Creek, a Natural Resource of Regional Significance, the development will be limited to one boardwalk that crosses over wetlands within the project for the purpose of non-motorized boat access. The design of this boardwalk shall comply with FDEP guidelines that allow for construction with only temporary impacts. The boardwalk must be reviewed and approved by St. Johns County, and either the Northeast District FDEP or SJRWMD, and the designated agency responsible for managing the Julington/Durbin Creek Peninsula preservation area.

**Stormwater Management.**

Development within the Project shall proceed concurrent with a contiguous, functioning, permitted management and storage of surface waters system. The Project shall meet the adopted drainage level of service standard in the County’s Comprehensive Plan. All stormwater discharge to Julington or Durbin Creek or their tributaries shall be treated prior to discharge.

**Solid Waste.**

22. The Project shall participate in the St. Johns County recycling program.

Transportation.

Mitigation costs for mass transit and roads for the development which is approved by this Development have been deemed to be those as specifically set forth in the attached in the Transportation Mitigation Summary at Exhibit G. The Developer shall mitigate for such impacts in the following manner:

23. I-95/9B Interchange Contribution.

No later than six (6) months from the effective date of this Development Order or sixty (60) days after the developer takes title to the property whichever comes first, Developer shall donate to the FDOT 204 acres at the intersection of 1-95 and the proposed 9B interchange as further depicted on the Master Plan at Exhibit D. Such land shall have a restriction in the deed that it shall be used for an interchange or other road project of FDOT. At the same time as the donation of the 204 acres, Developer shall donate an amount not to exceed twenty-five (25) acres on the DRI site at a location mutually agreed upon by Applicant and FDOT for the purpose of storm water retention for the interchange.

24. Racetrack Road.

(1) No later than thirty months from the effective date of the Development Order, Developer shall commence construction, or cause construction to commence, or pay to St. Johns County the full cost as agreed to by the County, of the four-laning of Racetrack Road from U.S. 1 (including all necessary at-grade intersection improvements at the U.S. 1/Racetrack Road intersection), to the East Spine Road entrance into the single-family development between parcels 41 and 42 as depicted on the Master Plan. The Applicant shall reserve sufficient right of way along the entirety of the project along Racetrack Road to expand the present 66 feet of right
of way to 133 feet (contributing 67 feet or one half of the right of way needed to total 200 feet); and within 90 days of such a request by St. Johns County, the Developer shall convey to St. Johns County such right of way to accommodate improvements adjacent to the entire southern boundary of the project." Such right of way is estimated to be 20 acres. Developer agrees to convey up to an additional one acre if roadway right of way measurements require such acreage for the road improvement. Provided, however, if the county has not acquired the additional one half of the right of way needed to match the Bartram conveyance at the time the right of way is needed to complete the widening of the Racetrack Road segments required by this DRI, then Developer shall donate such additional right of way up to 67 feet as is necessary to construct the widening projects set forth in this DRI. In the event that Developer donates such additional right of way for Racetrack Road, the value of the additional donated right of way shall be credited against the $7,961,998 required for the construction of Phase III of this development, such value to be established by filing a Notice of Proposed Change to the DRI. In addition, the Developer shall receive a credit against county transportation impact fees for the value of the additional donated right of way pursuant to the impact fee ordinance.

(1) No later than thirty months from the effective date of the Development Order, Developer shall commence construction, or cause construction to commence, or pay to St. Johns County the full cost as agreed to by the County, of the four-laning of Racetrack Road from U.S. 1 (including all necessary at-grade intersection improvements at the U.S. 1/Racetrack Road intersection), to the East Spine Road entrance into the single family development between parcels 41 and 42 as depicted on the Master Plan. The Applicant shall reserve sufficient right of way along the entirety of the project along Racetrack Road, as further depicted on Exhibit H, to expand the present 66 feet of right of way to 133 feet (contributing 67 feet or one half of the right of way needed to total 200 feet), and within 90 days of such a request.
by St. Johns County, the Developer shall convey to St. Johns County such right of way to accommodate improvements adjacent to the entire southern boundary of the project. Such right of way is estimated to be 20 acres. Developer agrees to convey up to an additional one acre if roadway right of way measurements require such acreage for the road improvement. Provided, however, if the county has not acquired the additional one half of the right of way needed to match the Bartram conveyance at the time as the right of way is needed to complete the widening of the Racetrack Road segments required by this DRI, then Developer shall donate such additional right of way up to 67 feet as is necessary to construct the widening projects set forth in this DRI. In the event that Developer donates such additional right of way for Racetrack Road, the value of the additional donated right of way shall be credited against, the $7,961,998 required for the construction of Phase II of this development, such value to be established by filing a Notice of Proposed Change to the DRI. In addition, the Developer shall receive a credit against county transportation impact fees for the value of the additional donated right of way pursuant to the impact fee ordinance. St. Johns County agrees to acquire at its cost lands in St. Johns County needed to obtain sufficient right of way in excess of lands to be contributed by Applicant ("Required Right of Way") in order to widen Racetrack Road from the East Spine Road of Bartram Park to Russell Sampson Road and construct stormwater ponds.

(2)—No later than the date of connection of Bartram Park Blvd. to Racetrack Rd., Developer shall four lane Racetrack Road including the Durbin Creek bridge and the bridge over I-95 from Russell Sampson Road to the East Spine Road. Bartram Park Blvd. shall not be open and operational until the Applicant has constructed, caused to be constructed or paid the full cost, as determined by St. Johns County, for the four-laning of this segment of Racetrack Road.
(2) Construction for the final segment of Bartram Park Blvd. from its existing terminus to Racetrack Road shall be commenced on or before June 2006 and completed no later than June 2007. On or before February 2008, or as soon as sufficient land for right of way and stormwater ponds has been acquired by St. Johns County and Duval County, whichever is later, Developer shall commence construction of the four-laning of Racetrack Road from Russell Sampson Road to the East Spine Road including the I-95 bridge/ flyover. Construction shall be completed within twenty months of commencement.

(3) Impact fee credit shall be allowed for the cost of the improvements to Racetrack Road and the donation of right of way in accordance with the applicable County impact fee ordinance. The improvements to Racetrack Road and the donation of Racetrack Road right of way shall be deemed to satisfy all DRI transportation mitigation requirements of St. Johns County.

(3) The developer shall receive a credit against the proportionate share of $11,161,335, consisting of $8,161,335 for construction of both improvements to Racetrack Road and $3,000,000 for right of way contribution. If the substantial total is less than $13,538,645 ($11,161,335 plus $2,377,310 which is the cost of widening Racetrack Road from the east Spine Road to U. S. 1), Developer will pay the difference in cash in year 2000 dollars to the City of Jacksonville and St. Johns County in proportion to the costs of the Racetrack Road improvements allocated to each County as fulfillment of this condition. The Developer acknowledges that any Impact Fee Credit Agreement with St. Johns County shall only permit credits for improvements in St. Johns County or sums paid to St. Johns County and not for any sums paid to Duval County. Provided, however, if at the time of payment for this improvement, the cost including the value of the right of way is greater than $13,538,645, Developer shall have
the right in subsequent changes to the Development Order to request credit for the difference in the estimated cost and actual cost against the Additional Transportation Contribution. The improvements to Racetrack Road and the donation of Racetrack Road right of way shall be deemed to satisfy all DRI transportation mitigation requirements of St. Johns County.

25. **Duval County-St. Augustine Road.**

Within thirty (30) days of the date that the City issues a Notice of Commencement for the six-laning (from 4 to 6 lanes) of St. Augustine Road adjacent to the northern boundary of the project but no later than the commencement of any development within Phase II,

1. Developer shall pay to the City the amount of $1,000,000 to be used for the six-laning (from 4 to 6 lanes) of St. Augustine Road from the westernmost entrance of Bartram Park onto St. Augustine Rd. to 1-95 provided, however, no such payment shall be due any earlier than twelve months from the effective date of the Development Order;

2. Developer shall convey right of way consisting of 4.8 acres adjacent to the northern boundary of Bartram Park for the six-laning of St. Augustine Road.

**Additional Transportation Contribution**

Prior to the commencement of Phase III, in addition to Racetrack Road obligations described above, Developer shall contribute $7,961,998 (in year 2000 dollars to be adjusted by U.S. Government-issued annual Consumer Price Index inflation factors until the commitment is discharged) to the appropriate entity for improvements to be made to significant roadways impacted by the development. Such improvements will be identified in a Notice of Proposed Change to be approved by both the City and County prior to the commencement of Phase III.

Prior to the commencement of Phase II, Developer shall contribute $7,961,998 (in year 2000 dollars to be adjusted by U.S. Government issued annual inflation factors until the
commitment is discharged and as may be adjusted due to additional right of way contributed as described in Paragraph 24 (1)) to the appropriate entity for improvements to be made to significant roadways impacted by the development. Such improvements will be identified in a Notice of Proposed Change to be filed and approved prior to the commencement of Phase II. Once the transportation mitigation requirements consisting of the four-laning of Racetrack Road from U.S. 1 to the East Spine Road and the PD&E Study described in this paragraph 25 have been completed, or the payment made to St. Johns County for the full costs of such improvements, as agreed to by the County, then Parcels 41, 42, 43 & 44 as depicted on Map H may be developed to completion. The access points on Map H are for illustrative purposes only. The access points will be subject to the St. Johns County Access Management Standards applicable to Race Track Road at the time of construction plan submittal.

**Project Development Environmental Study**

No later than six months from the effective date of the Development Order, Applicant shall initiate at his cost a Project Development Environmental Study ("PD&E") for a new interchange to be located at the southward extension of S.R. 9B from 1-95 and the East West Parkway as proposed by the FDOT. The westward extension of this interchange will be a realigned segment of Racetrack Road. This study will be conducted in accordance with FDOT’s most current PD&E manual, and it will result in an approved environmental document. The applicant shall coordinate this study and the conceptual design of the new interchange with FDOT, the City of Jacksonville, St. Johns County, MPO, and any other directly affected developers/property owners. In the event that the cost of the study exceeds **$500,000**, as agreed
upon by FDOT, the amount of excess costs shall be applied as a credit to reduce the applicant’s proportionate share payment to be paid prior to Phase III.

**Additional Transportation Provisions.**

26. Costs of mitigation shall be a credit against impact fees, fair share, or proportionate share contributions required by St. Johns County in accordance with the applicable St. Johns County ordinance(s).

27. Developer, its successors and assigns shall have the right to expand and drain into storm water retention ponds located within the boundaries of the DRI which are presently used by the FDOT, as approved by FDOT.

28. Developer shall design the project to accommodate public transit and shall work with the Jacksonville Transit Authority as necessary to coordinate this development with any plans to extend transit to the project and to St. Johns County. In addition, the developer shall coordinate with the MPO in promoting ridesharing, van pooling, and other transportation demand management strategies. Any effort shall be coordinated with other major developments in this area of the region, and shall be consistent with any recommendations included in the St. Johns County Northwest Sector Plan addressing transit and transportation demand management strategies. Any efforts to promote transit and transportation demand management shall be included in the Bartram Park Monitoring Report.

29. Applicant shall be responsible for the full costs of all intersection improvements, including but not limited to, signalization, turn lanes, deceleration and acceleration lanes, etc., necessary to provide access to the Bartram Park DRI as determined by the appropriate review agency. The design of the access improvements shall be approved by the appropriate review agency.
30. Applicant shall diligently work with Florida East Coast Railroad ("FEC") in an effort to establish a crossing across the FEC railroad to U.S. 1 to provide access to development west of the railroad. All efforts made in establishing the access onto U.S. 1 shall be documented in the Monitoring Reports.

31. Compliance with the requirements of this Transportation Section shall be deemed to meet all Applicant’s transportation mitigation requirements for the development approved in the Development Order.

**Air Quality**

The following fugitive dust control measures shall be undertaken during all construction activities throughout buildout of the project:

32. Contractors will moisten soil or use resinous adhesives on barren areas, which shall include, at a minimum, all roads, parking lots, and material stockpiles;

33. Contractors will use mulch, liquid resinous adhesives with hydro-seeding or sod on all landscape areas;

34. Contractors will remove soil and other dust-generating material deposited on paved streets by vehicular traffic, earth moving equipment, or soil erosion;

35. Contractors will utilize the best operating practices in conjunction with any burning resulting from land clearing, which may include the use of air curtain incinerators.

**Community Services/Fire Protection**

36. The Developer shall donate to St. Johns County within twenty-four (24) months from the effective date of this Development Order Parcel 46 (not to exceed 3.02 acres) as depicted on Map H Development Plan. The site is to be used at the county’s discretion for community services of fire, police protection, emergency services, library, or county offices;
including drainage and stormwater retention. The deed of conveyance shall contain covenants, restrictions and easements insuring that the property will be used for its intended purpose. In the event that the property is not utilized by the county by ten (10) years after the effective date of the Development Order, the Developer, its successors and/or assigns shall have the right to repurchase the site for the value of the donation and to release the covenant.

36. Six (6) months after approval of construction drawings for the improvements to Racetrack Road or five years from the effective date of this Resolution whichever is earlier, the Developer shall donate to St. Johns County, Parcel 46 (not to exceed 3.02 acres) as depicted on approved Map H Development Plan. The site is to be used at the county’s discretion for community services of fire, police protection, emergency services, library, or county offices, including drainage and stormwater retention. The deed of conveyance shall contain covenants, restrictions and easements insuring that the property will be used for its intended purpose. In the event that the property is not utilized by the county within five years (5) years after the conveyance to the County, the Developer, its successors and/or assigns shall have the right to repurchase the site for the value of the donation and to release the covenant. The value of the donation will be determined by an appraisal to be performed at the time the Developer asserts its right to repurchase the site pursuant to the terms and conditions of this section.

37. All structures greater than 35 feet in height within Bartram Park shall be protected with an automatic sprinkling system designed and installed in accordance with all applicable fire and building codes.
38. Impact fee credits shall be allowed for the donation of the land for the community services site in accordance with the applicable County impact fee ordinance. The total value of the site shall be applied against required impact fees for fire, police, and emergency services.

**Recreation and Open Space**

39. The Developer shall create a two acre canoe access park on Parcel 29-as depicted on Map H—Development Plan or on a site acceptable to the county. The park shall have a natural graded parking area with a cleared trail bridging and elevated walkway over the wetlands as necessary from the parking area to the canoe launch and take out area. The canoe access improvements will be completed and ready for use no later than January 1, 2005; six months after approval of construction drawings for the improvements to Racetrack Road or five years from the effective date of this Resolution whichever is earlier.

40. Bartram Parkway is the north-south spine road bisecting the portion of the DRI located west of I-95. A linear park and trail will be constructed parallel to Bartram Parkway from Old St. Augustine Road to Racetrack Road. The Linear Park will be at least twenty (20) feet wide and will include a twelve (12) foot wide hard surface path for public pedestrian use, together with benches and other resting areas interspersed throughout. Such Linear Park will be constructed within the same timeframe as the Bartram Parkway is constructed.

41. Other recreational components of the project will be located in the Duval County portion of the development to serve the residential development located in Duval County and are further described in the Duval County Development Order.

**Impact Fees**

Impact fee credits towards any present or future impact fees that may be adopted by St. Johns County shall be allowed for any contribution of land, money (including, but not limited to,
“fair share contributions” or improvements made by the Developer or the Community Development District, as the case may be, for public facilities pursuant to the guidelines stipulated in Section 380.06(16), Florida Statues, and St. Johns County Impact Fee ordinances 87-57, 87-58, 8759 and 87-60, as they may be amended. The Developer proposes and the County agrees that, in the event that any contributions of land, money (including proportionate share or fair share payments), or improvements funded or constructed with funds from a community development district are required by then current law to give rise to impact fee credits to the community development district, then such impact fee credit shall be established in the name of the community development district.

Community Development District.

The Developer has indicated that it may form one or more Community Development Districts within the DRI pursuant to Chapter 190, F.S. (1999). Nothing in this section shall be construed as approval or consent by the County to the establishment of the Community Development District by the Developer pursuant to Chapter 190, F.S., and the County expressly maintains all rights available to it pursuant to Chapter 190, F.S., related to the proposed establishment of a Community Development District by the Developer. Any Community Development District for Bartram Park approved pursuant to Chapter 190, F.S. (1999) may finance, fund, plan, establish, acquire, construct or reconstruct, enlarge or extend, equip, operate and maintain projects, systems and facilities for the purposes described in Section 190.012 F S including, but not limited to, any of the indicated transportation improvements set forth in this Development Order and any other project required or authorized by this Development Order. Construction or funding by any such Community Development District of all such projects within or without the boundaries of the Community Development District required by this
Development Order or necessary to serve the development approved by this Development Order is expressly approved. If the Developer is required by this Development Order to provide, pay for or otherwise cause to be provided, infrastructure, projects, systems or facilities set forth in Chapter 190, F.S., including, without limitation, those in §190.012(1) and (2) F.S. (1999), then the Community Development District independently may satisfy such obligations. To the extent any such obligation under this Development Order is met or performed by the Community Development District, then the Developer shall no longer be subject to the obligation. The Developer proposes and the County agrees that, in the event that any contributions of land, money (including “fair share payments”), or improvements funded or constructed with funds from a Community Development District are required by then current law to give rise to impact fee credits to the Community Development District, then such impact fee credits shall be established in the name of the Community Development District.

**Hurricane Evacuation**

Access to the southeast quadrant onto Racetrack Road shall be adequately designed to St. facilitate emergency evacuation. The applicant will design the main access as a four-lane entranceway, and shall explore the potential for an entrance onto U.S. 1.

**Silviculture**

St. Johns County hereby acknowledges that the property which is the subject of this Development Order is presently being utilized in an on-going silviculture operation. Nothing in this Development Order shall be deemed to prohibit such silviculture practices. The silviculture operation shall continue until such time as the Developer commences development of that portion of the property. However, silviculture shall be prohibited in that portion of property
which consists of wetland areas to be preserved and those areas immediately adjacent to wetlands which will be used as buffers to the wetland areas

**Historical and Archeological Sites**

Should any regionally significant historical and archaeological resources by discovered in the course of development, the developer shall immediately notify the Division of Historical resources. No disruption of the findings shall be permitted until the investigation is complete and the Division of Historical Resources has rendered a recommendation which will be binding to the Applicant.

**Notices**

Any and all notices required or allowed to be given to the Developer shall be mailed or delivered to the Authorized Agent or his successors in office as follows:

**Validity of Development Order**

In the event that a portion of this development order is determined to be invalid by a court of competent jurisdiction as applied to any persons or circumstances, such portions or
sections shall remain in full force and effect as to all other persons or circumstances, and the remaining portions or sections of this development order not affected by such judicial determination shall remain in full force and effect as to all persons and circumstances.

RENDITION

Within 10 days of the adoption of this Development Order, St. Johns County shall render a copy of this Development Order with all attachments, certified as complete and accurate, by certified mail, return receipt requested, to the Florida Department of Community Affairs, Bureau of Local Planning, Northeast Florida Regional Planning Council, and the Applicant.

NOTIFICATION OF A PROPOSED CHANGE TO A PREVIOUSLY APPROVED DEVELOPMENT OF REGIONAL IMPACT (DRI)
SUBSECTION 380.06(19), FLORIDA STATUTES

Subsection 380.06(19), Florida Statutes, requires that submittal of a proposed change to a previously approved DRI be made to the local government, the regional planning agency, and the state land planning agency according to this form.

1. I, J. Thomas Dodson, the undersigned owner/authorized representative of Bartram Park, Ltd. (developer) and Bartram Investments, LLC and Winslow Farms, Ltd., hereby give notice of a proposed change to a previously approved Development of Regional Impact in accordance with Subsection 380.06(19), Florida Statutes. In support thereof, I submit the following information concerning the Bartram Park DRI (original and current project names) development, which information is true and correct to the best of my knowledge. I have submitted today, under separate cover, copies of this completed notification to St. Johns County, (local government), to the Northeast Florida Planning Council, and to the Bureau of State Planning, Department of Community Affairs and City of Jacksonville (adjacent local government).

(Date) J. Thomas Dodson
2. Applicant: J. Thomas Dodson, Jr.  
Bartram Park, Ltd.  
Bartram Investments, LLC  
Winslow Farms, Ltd.  
13361 Atlantic Boulevard  
Jacksonville, Florida 32225  
(904) 221-2605

3. Authorized Agent: Susan C. McDonald, Esquire  
Rogers Towers, P.A.  
1301 Riverplace Boulevard, Suite 1500  
Jacksonville, Florida 32207  
(904) 346-5587

4. Location: Portions of Sections 28, 29, 30, 32, 33, 34 and a portion of the Christopher Minchen Grant, Section 48, and a portion of Sections 45, and 47, Township 5 South, Range 28 East, St Johns County, Florida

5. Provide a complete description of the proposed change. Include any proposed changes to the plan of development, phasing, additional lands, commencement date, build-out date, development order conditions and requirements, or to the representations contained in either the development order or the Application for Development Approval.

Indicate such changes on the project master site plan, supplementing with other detailed maps, as appropriate. Additional information may be requested by the Development or any reviewing agency to clarify the nature of the change or the resulting impacts.

We are requesting the following changes to the DRI:

1. **Special Condition** Paragraph 24. Transportation Racetrack Road Improvement is hereby amended to read as follows:

**24. Racetrack Road.**

(1) Add as last sentence of this paragraph:

St. Johns County agrees to acquire at its cost lands in St. Johns County needed to obtain sufficient right of way in excess of the 133 feet of 67-feet right of way plus 6.83 acres for stormwater ponds to be contributed by Applicant ("Required Right of Way") in order to widen Racetrack Road from the East Spine Road of Bartram Park to Russell Sampson Road and construct stormwater ponds.

(2) Delete existing language and replace with the following:
Construction for the final segment of Bartram Park Blvd. from its existing terminus to Racetrack Road shall be commenced on or before June 2006 and completed no later than June 2007. On or before February 2008, or as soon as sufficient land for right of way and stormwater ponds has been acquired by the County, whichever is later, Developer shall commence construction of the four-laning of Racetrack Road from Russell Sampson Road to the East Spine Road including the I-95 bridge/flyover. Construction shall be completed within twenty months of commencement.

(3) Delete existing language and replace with the following:

The developer shall receive a credit against the proportionate share of $11,161,335, consisting of $8,161,335 for construction of both improvements to Racetrack Road and $3,000,000 for right of way contribution. If the substantiated total is less than $13,538,645 ($11,161,335 plus $2,377,310 which is the cost of widening Racetrack Road from the east Spine Road to U. S. 1), Developer will pay the difference in cash in year 2000 dollars to either the City of Jacksonville or St. Johns County as fulfillment of this condition. Provided, however, if at the time of payment for this improvement, the cost including the value of the right of way is greater than $13,538,645, Developer shall have the right in subsequent changes to the Development Order to request credit for the difference in the estimated cost and actual cost against the Additional Transportation Contribution. The improvements to Racetrack Road and the donation of Racetrack Road right of way shall be deemed to satisfy all DRI transportation mitigation requirements of St. Johns County.

In the Development Order there was never any time frame specified for the completion of Bartram Park Blvd. and connection to Racetrack Rd. This amendment will provide a time certain for completion of Bartram Park Blvd. and its connection to Racetrack Road. Bartram Park Blvd., a four lane connector road, will provide a much needed north-south alternative to Philips Highway and provide a beginning to the North-South Connector for St. Johns County. There will be no net increase in transportation impacts as a result of these changes and the total amount of pipelining payment remains the same. Based on the foregoing, these changes should not be construed as a substantial deviation.

Further, the Development Order as amended presently provides that if improvements to Racetrack Road exceed the estimated cost, the proportionate share calculation may be recomputed to revise the Racetrack Road improvement costs if they exceed the estimated cost at the time of DRI approval. The only resulting adjustment would be in the amount of the "Additional Contribution". The total amount of the proportionate share would not change. This is the intent and purpose of the language presently found in the subsection of Special Condition VII Additional Contribution. Therefore, the requested change does not revise the intent and purpose of that section. The recalculation would be computed as follows: The approved proportionate share of $47,350,643 would be reduced by (i) the $23,350,000 Interchange Contribution, (ii) the actual cost of the Racetrack Road
improvements in 1999 dollars, (iii) the value of the Racetrack Road right of way contribution which is $3,000,000, (iv) the amount of $1,000,000 for the St. Augustine Road six lane widening and right of way contribution, and (v) the $500,000 PD & E Study. The resulting figure will be the "Additional Contribution" which will be substituted for the estimated $7,961,998 contribution in year 2000 dollars.

2. Paragraph 3 of the General Conditions of the DRI is deleted in its entirety and the following substituted therefore: Phasing: General Condition 3. Phasing and Buildout and Expiration of DRI. The phasing schedule of this portion of the DRI is revised as follows:

Development in St. Johns County shall occur as follows:

<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Office</td>
<td></td>
<td>44,830 square feet</td>
</tr>
<tr>
<td>Commercial</td>
<td></td>
<td>374,084 square feet</td>
</tr>
</tbody>
</table>

No vertical development will occur in St. Johns County prior to January 1, 2005. Construction may commence on all development in the county at such time as (i) construction has commenced on the widening of the portion of Racetrack Road from the East Spine Road to Russell Sampson Road including the Durbin Creek Bridge and (ii) the total cost of construction of that improvement is guaranteed by a bond. The projected buildout date for all development is December 31, 2015. The DRI termination and DRI Development Order expiration dates are established as December 31, 2020.

2. The Master Plan, Map H, and Chart as depicted in Exhibit D in the Development Order is replaced by Master Plan, Map H, dated 5-20-05 and Chart dated March 4, 2005 as depicted in Exhibit A.

All other language in this section remains unchanged.

3. Special Condition 13 Wetland Impacts of the Development Order is hereby revised to read as follows:

"The Sale of the Preserve Property as described above pursuant to the conditions of the Agreement of Purchase and Sale between Applicant and the St. Johns River Water Management District shall serve as mitigation for impacts to sixteen (16) acres of wetlands within the DRI, either in Duval or St. Johns County. Any further wetlands impacts shall not exceed 200 acres total for the entire DRI (including 16 acres which have already been mitigated); provided, however, that up to 7.67 acres of additional impacts (above 200) may be located within Bartram Parcel 45. The entire 200 acres are not contiguous. The limit of wetland impacts shall apply only to the improvements within the Bartram Park DRI boundary and shall not include wetland impacts, if any,
associated with the widening of Racetrack Road or construction of the Canoe launch site. Wetland impacts will be mitigated through the regulatory permitting process. Wetland impacts in St. Johns County shall not exceed ten (10) acres not including wetland impacts, if any, associated with the widening of Racetrack Road or construction of the Canoe launch site."

The additional wetland impacts are being mitigated through the purchase and preservation of an 1098.89 acre wetland tract in St. Johns County. This parcel is located in the midst of the Cummer Tract which was acquired by the St. Johns River Water Management District and completes the district's purchase and preservation of a regionally significant wetland system. Attached is information from Environmental Services Inc. which describes the wetland qualities of the site together with the pertinent water management district permit information relating to the site. The decrease of 100 acres of open space is being offset by a corresponding increase of 100 acres in residential development pursuant to Florida Statutes 380.0619 (e) (5) (c) which is a presumption of a substantial deviation. The statute permits simultaneous increases and decreases of at least two of the uses within an authorized multiuse development of regional impact which was originally approved with three or more uses specified in s. 380.0651 (3) (c), (d), (f), and (g) and residential use. This change meets that criteria. In addition, we believe the change should not be viewed as a substantial deviation because the developer has purchased 1098.89 acres of regionally significant wetlands located within the same drainage basin as the DRI which will be preserved in their natural state to offset the development of these wetlands. As the attached information states, the wetlands to be impacted on site are made up of stressed isolated low quality wetlands, and former borrow pits. Therefore, the use of these wetlands for development is offset by the preservation of 1089 acres of pristine high quality wetlands viewed as regionally significant by the water management district and required by the district as a part of the on site permit. Further the development of these wetlands does not create additional external impacts or add additional development rights to the DRI. Therefore, such a change should not be viewed as a substantial deviation.

6. Complete the attached Substantial Deviation Determination Chart for all land use types approved in the development. If no change is proposed or has occurred, indicate no change.

7. List all the dates and resolution numbers (or other appropriate identification numbers) of all modifications or amendments to the originally approved DRI development order that have been adopted by the local government, and provide a brief description not already addressed in the Substantial Deviation Determination Chart). Has there been a change in local government jurisdiction for any portion of the development since the last approval or development order was issued? If so, has the annexing local government adopted a new DRI development order for the project?

The following are changes to the St. Johns Development Order only and do not include changes to the Duval County Development Order.
A. Resolution No. 139-Approved the DRI September 27, 2000. (St. Johns County).

B. Resolution 2001-93-Amends phasing in St. Johns County lands, revises Master Plan, revises Transportation Condition relating to improvements to Racetrack Road; revises Transportation Condition relating to payment required by the Additional Transportation Condition.

C. Resolution 2003-94-Provides interpretation of conditions as to Parcel 45.

D. Resolution 2005-146 (pending approval) Revises conditions relating to canoe launch site and community services site.

8. Describe any lands purchased or optioned within 1/4 mile of the original DRI site subsequent to the original approval or issuance of the DRI development order. Identify such land, its size, intended use, and adjacent non-project land uses within 1/2 mile on a project master site plan or other map.

   none

9. Indicate if the proposed change is less than 40% (cumulatively with other previous changes) of any of the criteria listed in Paragraph 380.06(19)(b), Florida Statutes. Less than 40%.

   Do you believe this notification of change proposes a change which meets the criteria of Subparagraph 380.06(19)(e)2., F.S.

   Yes ☒   No ☐

10. Does the proposed change result in a change to the build-out date or any phasing date of the project? If so, indicate the proposed new build-out or phasing dates. No

11. Will the proposed change require an amendment to the local government comprehensive plan? No

   Provide the following for incorporation into such an amended development order, pursuant to Subsections 380.06(15), F.S., and 91-2.025, Florida Administrative Code:

12. An updated master site plan or other map of the development portraying and distinguishing the proposed changes to the previously approved DRI or development order conditions. Yes, see attached Exhibit A.

13. Pursuant to Subsection 380.06(19)(f), F.S., include the precise language that is being proposed to be deleted or added as an amendment to the development order. This language should address and quantify:

   A. All proposed specific changes to the nature, phasing, and build-out date of the development; to development order conditions and requirements; to commitments
and representations in the Application for Development Approval; to the acreage attributable to each described proposed change of land use, open space, areas for preservation, green belts; to structures or to other improvements including locations, square footage, number of units; and other major characteristics or components of the proposed change;

B. An updated legal description of the property, if any project acreage is/has been added or deleted to the previously approved plan of development;

C. A proposed amended development order deadline for commencing physical development of the proposed changes, if applicable;

D. A proposed amended development order termination date that reasonably reflects the time required to complete the development;

E. A proposed amended development order date until which the local government agrees that the changes to the DRI shall not be subject to down-zoning, unit density reduction, or intensity reduction, if applicable; and

F. Proposed amended development order specifications for the annual report, including the date of submission, contents, and parties to whom the report is submitted as specified in Subsection 9J-2.025(7), F.A.C.

See proposed ordinance reflecting the changes attached at Exhibit B.

PTECE OF ADVERTISEMENT

NOTICE OF A PROPOSED CHANGE (NOPC) TO
THE BARTRAM PARK DEVELOPMENT OF
REGIONAL IMPACT (DRI)

NOTICE IS HEREBY GIVEN that a public hearing will be held on Tuesday, February 13, 2006, by the Board of County Commissioners at 1:30 p.m. in the County Auditorium, County Administration Building, 400 Lewis Street, St. Augustine, Florida, to consider a Notice of Proposed Change (NOPC) to the Nopc 05-02 BARTRAM PK Development Order (DIO) The subject property is located North of Racetrack Road within St. Johns County, Florida.

This file is maintained in the Planning Division of the Growth Management Services Department, at the County Administration Building, 400 Lewis Street, St. Augustine, Florida, and may be examined by interested parties prior to said public hearing. Notice to persons needing special accommodations and to all hearing impaired persons, in accordance with the Americans With Disabilities Act, persons needing special accommodations or an interpreter to participate in this proceeding should contact the County's ADA Coordinator at (904) 209-6065 or at the County Administration Building, 400 Lewis Street, St. Augustine, Florida, 32084. For hearing impaired individuals, call Florida Relay Service at 711, 955 8776, no later than 72 days prior to the date of this meeting.

If a person decides to appeal any decision made with respect to any matter considered at the meeting or hearing, he will need a copy of the proceedings and for such purpose he may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which action is to be based.

This notice is subject to court imposed statutory deadlines in accordance with Section 120.565, Florida. An interested party may request an order setting a date for the filing of comments or to extend time to file comments with the Board of County Commissioners and the Planning and Zoning Agency members of this topic. Except with the consent of both the Board of County Commissioners and the Planning and Zoning Agency members of this topic, these comments must be received by the Office of the Clerk of the Board of County Commissioners.
