ST. JOHNS COUNTY
RESOLUTION NUMBER 2006- 95

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF ST. JOHNS COUNTY, STATE OF FLORIDA, MODIFYING THE Nocatee DRI Development Order as Previously Approved by St. Johns County on February 23, 2001, Under Resolution 2001-30; Finding The Modification Does Not Constitute a Substantial Deviation; And Providing for an Effective Date.

WHEREAS, Thomas Ingram, Esquire, the authorized representative of SONOC, LLC, has submitted a Notice of Proposed Change (NOPC) to the Nocatee Development of Regional Impact (DRI) by letter dated January 27, 2006;

WHEREAS, the Developer submits that the changes proposed in the NOPC do not constitute a substantial deviation pursuant to the terms of Section 380.06(19) of the Florida Statutes and the Developer has provided evidence that such changes do not constitute a substantial deviation under any provision of Section 380.06 (19) of the Florida Statutes; and

WHEREAS, the Board of County Commissioners has reviewed the NOPC and considered the evidence presented and whether the proposed modification constitutes a substantial deviation to the DRI requiring further DRI review at a public hearing held March 21, 2006, after required notice.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF ST. JOHNS COUNTY, FLORIDA:

1. The following facts and conclusions of law are established by clear and convincing evidence to support this Resolution:

   a. The requested changes to not constitute a substantial deviation pursuant to the terms of Section 380.06(19) of the Florida Statutes because there is no change in either the development rights or increase in impacts from those approved Twin Creeks DRI Development Order.

   b. The changes requested in the NOPC area consistent with the Land Development Code of St. Johns County, as amended.

   c. The changes requested in the NOPC are consistent with and further the objectives of the St. Johns County Comprehensive Plan 2015.

2. Modify Section 10 of the Development Order from Annual Reporting to Biennial, specifically as described in Exhibit A, NOPC Application response to Question 13.

3. Modify Section 16(b) of the Development Order to revise acreage of the Nocatee Greenway, specifically as described in Exhibit A, NOPC Application response to Question 13;

4. Modify Section 30 of the Development Order to specify the library and annex site shall be conveyed upon request by the County, specifically as described in Exhibit A, NOPC Application response to Question 13;
5. Modify Section 31 of the Development Order to reduce the neighborhood and community park acreage, specifically as described in Exhibit A, NOPC Application response to Question 13;

6. Modify Section 32(a)(2) of the St. Johns County Development Order to designate Oak Hammock Village North as the site for the high school, specifically described in Exhibit A, NOPC Application response to Question 13.

7. Except as modified by this Resolution, the existing Nocatee DRI Development Order shall remain in full force and effect.

8. A certified copy of this resolution, complete with all exhibits, shall be rendered by St. Johns County within ten (10) days of its adoption by certified mail, return receipt requested to the Developer, the Florida Department of Community Affairs, and the Northeast Florida Regional Council.

9. This Resolution shall take effect upon its adoption.

PASSED AND APPROVED BY THE BOARD OF COUNTY COMMISSIONERS OF ST. JOHNS COUNTY, FLORIDA THIS 21st DAY OF March 2006.

Re: Nocatee Notice of Proposed Change

Dear Teresa, Mike, Ed and Mike:

Please find enclosed a revised copy of the Notice of Proposed Change for the Nocatee Development of Regional Impact, located in St. Johns and Duval Counties. The only change to this application is a withdrawal of a proposed revision to Map H-1 and H-2, which would have changed the access road between Oak Hammock Village (North) and Oak Hammock Village to a pedestrian/bicycle connection. This revised application replaces the original NOPC dated January 27, 2006.

Please call if you have any questions.

Sincerely,

Thomas O. Ingram

NOTIFICATION OF A PROPOSED CHANGE TO A PREVIOUSLY APPROVED
DEVELOPMENT OF REGIONAL IMPACT (DRI)
SUBSECTION 380.06(19), FLORIDA STATUTES

Subsection 380.06(19), Florida Statutes, requires that submittal of a proposed change to a
previously approved DRI be made to the local government, the regional planning agency, and the
state land planning agency according to this form.

1. I Thomas O. Ingram, Esq., the undersigned owner/authorized representative of SONOC
Company, L.L.C., hereby give notice of a proposed change to a previously approved
Development of Regional Impact in accordance with Subsection 380.06(19), Florida Statutes. In
support thereof, I submit the following information concerning Nocatee development, which
information is true and correct to the best of my knowledge. I have submitted today, under
separate cover, copies of this completed notification to St. Johns County and the City of
Jacksonville, to the Northeast Florida Regional Planning Council, and to the Bureau of State
Planning, Department of Community Affairs.

4. Location (City, County, Township/Range/Section) of approved DRI and proposed change.

The Nocatee Development of Regional Impact is within Duval and St. Johns Counties and is located north and south of County Road 210, east of U.S. Highway 1, and west of the Intracoastal Waterway. Nocatee is located in portions of Township 4 South, Range 28 East, Township 4 South, Range 29 East, Township 5 South, Range 29 East, and Township 5 South, Range 28 East. A Vicinity Map showing the location of the project is attached as Exhibit A.

5. Provide a complete description of the proposed change. Include any proposed changes to the plan of development, phasing, additional lands, commencement date, build-out date, development order conditions and requirements, or to the representations contained in either the development order or the Application for Development Approval.

See attached.

Indicate such changes on the project master site plan, supplementing with other detailed maps, as appropriate. Additional information may be requested by the Department or any reviewing agency to clarify the nature of the change or the resulting impacts.

No Change.

6. Complete the attached Substantial Deviation Determination Chart for all land use types approved in the development. If no change is proposed or has occurred, indicate no change.

No change.
7. List all the dates and resolution numbers (or other appropriate identification numbers) of all modifications or amendments to the originally approved DRI development order that have been adopted by the local government, and provide a brief description of the previous changes (i.e., any information not already addressed in the Substantial Deviation Determination Chart).

There have been no modifications to the original DRI development orders.

Has there been a change in local government jurisdiction for any portion of the development since the last approval or development order was issued? If so, has the annexing local government adopted a new DRI development order for the project?

No change.

8. Describe any lands purchased or optioned within 1/4 mile of the original DRI site subsequent to the original approval or issuance of the DRI development order. Identify such land, its size, intended use, and adjacent non-project land uses within 1/2 mile on a project master site plan or other map.

See attached.

9. Indicate if the proposed change is less than 40% (cumulatively with other previous changes) of any of the criteria listed in Paragraph 380.06(19)(b), Florida Statutes.

</table>

10. Does the proposed change result in a change to the build out date or any phasing date of the project? If so, indicate the proposed new build out or phasing dates.

No change.

11. Will the proposed change require an amendment to the local government comprehensive plan?

No.

Provide the following for incorporation into such an amended development order, pursuant to Subsections 380.06(15), F.S., and 9J-2.025, Florida Administrative Code:
12. An updated master site plan or other map of the development portraying and distinguishing the proposed changes to the previously approved DRI or development order conditions.

No Change.

13. Pursuant to Subsection 380.06(19)(f), F.S., include the precise language that is being proposed to be deleted or added as an amendment to the development order. This language should address and quantify:

a. All proposed specific changes to the nature, phasing, and build out date of the development; to development order conditions and requirements; to commitments and representations in the Application for Development Approval; to the acreage attributable to each described proposed change of land use, open space, areas for preservation, green belts; to structures or to other improvements including locations, square footage, number of units; and other major characteristics or components of the proposed;

b. An updated legal description of the property, if any project acreage is/has been added or deleted to the previously approved plan of development;

c. A proposed amended development order deadline for commencing physical development of the proposed changes, if applicable;

d. A proposed amended development order termination date that reasonably reflects the time required to complete the development;

e. A proposed amended development order date until which the local government agrees that the changes to the DRI shall not be subject to down-zoning, unit density reduction, or intensity reduction, if applicable; and

f. Proposed amended development order specifications for the annual report, including the date of submission, contents, and parties to whom the report is submitted as specified in Subsection 9J-2.025(7), F.A.C.

See attached.
Below are responses to questions asked in the NOPC Form where additional space was needed to respond.

5. Description of Proposed Changes:

A. Parks (St. Johns County)

The required minimum 120 acres of neighborhood parks for St. Johns County is requested to be reduced by 20 acres, such that the St. Johns County portion of the project would have a required minimum of 250 acres of neighborhood and community parks rather than 270. Given the overall project density, the expected location of the parks, amenities within the Greenway, and the location of an age-restricted residential community with a concentration of on-site recreational improvements, the project is well served by 250 acres of neighborhood and community parks within St. Johns County. The St. Johns County portion of the project would remain subject to the other requirements for parks contained in section 31 of the St. Johns County development order. These requirements include: (a) a minimum of 150 acres of community parks, (b) a requirement that all residences be within 1/2 mile of a neighborhood or community park, (c) a requirement that each village have a central community park in or adjacent to a village center containing a minimum of ten (10) acres; and (d) a requirement that no dwelling unit shall be more than one-half mile from a neighborhood or a community park. The Nocatee Greenway would be increased by 20 acres as part of this proposal.

B. High School Site (St. Johns County)

Under the current development order for St. Johns County, the Developer is to convey a high school site to be located on the eastern side of the Town Center. The Developer has been in discussions with the St. Johns County School District regarding the location of the high school site. During the DRI approval process, the School District had taken the position that the high school site would better serve the Ponte Vedra/Palm Valley area if it were located on the eastern boundary of the DRI. Having had the opportunity to complete specific development plans for a significant portion of the DRI property and to undertake specific design review of the existing school site and surrounding lands over the last five years, the Developer is in agreement to relocate the high school site to the eastern portion of the project, and proposes a location in Oak Hammock Village (North), east of Davis Park, and south of County Road 210. It is the Developer’s understanding that the School Board is supportive of this change.

C. Summary

These changes and other more minor changes are summarized as follows:
- Modify the St. Johns County Development Order text to require the high school site to be located within Oak Hammock Village, east of Davis Park.

- Modify the timing of the required donation of a library site and a county annex site to St. Johns County such that donation of these sites would be required when requested by the County. Currently, these sites are required to be donated not later than the beginning of Phase 2.

- Reduce the minimum required acreage for neighborhood parks in St. Johns County by 20 acres, and increase the minimum amount of acreage within the Nocatee Greenway by 20 acres. A companion proposal would request that the parks condition to require that at least 150 acres of the total 250 acres of parks be in the form of community parks, with the remainder being neighborhood parks. Under this proposed change, there is not a net decrease in open space when applying the substantial deviation criteria under section 380.06(19)(b)13. The minimum acreages of neighborhood and community parks by phase are proposed to be adjusted pro rata. Other requirements relating to the placement and extent of parks, including the requirement that all dwellings within Nocatee be not more than one half mile from a neighborhood or community park, remain unchanged.

- Utilize biennial reporting under section 380.06(18), Florida Statutes (2005).

None of the proposed changes will increase the overall entitlements for the project.

7. **The Development Orders and Amendments Since Original Approval.**

The original development order was adopted by St. Johns County in Resolution 2001-30 on February 23, 2001 and by the City of Jacksonville in Ordinance 2001-13-E on February 27, 2001.

8. **Lands Purchased or Optioned within 1/4 Mile of Original DRI.**

Lands have been acquired within 1/4 mile of the project for the purpose of obtaining right of way for the County Road 210 improvements required pursuant to the DRI. A map showing such lands is attached as Exhibit E.

13. **Precise Language Proposed to be Added to the Development Order (changes shown in underline and strikeout unless indicated otherwise):**

A. Modify Section 10 of the St. Johns County Development Order and Section 10 of the Duval County Development Order as follows:
**Annual Biennial Reporting.** An annual biennial monitoring report for the Nocatee DRI shall be prepared by Applicant in accordance with section 380.06, Florida Statutes, and shall be submitted to the Northeast Florida Regional Planning Council ("NEFRPC"), Department of Community Affairs ("DCA"), St. Johns County Planning Division ("SJCPD") and the Jacksonville Planning and Development Department ("JPDD"), no later than March 1, 2007, and March 1 of each subsequent reporting year until buildout, commencing March 1, 2002 (the "Monitoring Report"). The monitoring reports shall be submitted consistent with the reporting requirements adopted in section 380.06(18), Florida Statutes, or as amended. Pursuant to Section 380.06(18), Florida Statutes (2005), if no additional development has occurred since the submission of the previous report, a letter from the developer stating that no development has occurred would satisfy the requirement for a report. Notwithstanding the foregoing, commencing on March 1, 2007, the Developer will submit reporting information annually in January of each year to the City of Jacksonville and St. Johns County as to (i) development rights allocated to grantees; (ii) development rights converted; and (iii) building permits issued in the prior year.

The Monitoring Report shall include:

* * * [no changes to subsections (i)-(xii)]
(xiii) Traffic reports, which shall be submitted to the Florida Department of Transportation ("FDOT") District Urban Office in Jacksonville, as well as to the Jacksonville Planning and Development Department, First Coast Metropolitan Planning Organization ("MPO"), St. Johns County Planning Division, NEFRPC, and DCA. The first traffic report shall be due concurrently with the first annual/biennial Monitoring Report and then biennially/annually thereafter until project buildout, unless otherwise specified by the NEFRPC. *** [no changes to the remainder of subsection (xiii)]

B. Modify Section 16(b) of the St. Johns County Development Order as follows:

**Greenway.** The Nocatee Greenway is shown on the Master Plan, Exhibit 2 (the "Greenway"). The Greenway shall be placed under conservation easements in the form required by the St. Johns River Water Management District in phases as part of the ERP Permit for portions of the Nocatee project. The first conservation easement for the initial portion of the Greenway shall be conveyed not later than 180 days after the Commencement Date. The Greenway shall be subject to a Greenway Management Plan, to be approved by the District as part of the ERP Permit. The proposed Greenway Management Plan shall be provided to the Planning Departments of the County and the City of Jacksonville, the Northeast Florida Regional Planning Council, and the Florida Fish and Wildlife Conservation Commission when it is submitted to the District during the ERP Permit application process for their review and comment, provided that the District shall be responsible to finally determine the terms of the Greenway Management Plan. Allowable uses of the Greenway shall include conservation, passive recreation, drainage features, silvicultural activities design to achieve conservation objectives (including prescribed burns), road crossings, utilities, and limited parking for users of the Greenway and shall be subject to approval by the County as part of the Planned Unit Development application for Nocatee with specific design and location approved as part of construction plan review. The precise boundaries of the Greenway may be adjusted at the time each conservation easement is conveyed to the District, provided that (i) the total acreage of the Nocatee Greenway (in St. Johns and the City of Jacksonville) shall be not less than 4,961,898 acres and include at least 960 acres of uplands at buildout; and (ii) no boundary adjustments may be made to decrease the 100-foot buffers adjacent to the mean high water line of Smith Creek, Deep Creek, Durbin Creek, and Sweetwater Creek, as provided for in section 17 below. Vegetation bordering the Greenway may be trimmed, consistent with the Nocatee Greenway Management Plan to control or eliminate exotic vegetation and to control understory growth to reduce risks of wildfires.
C. Amend Section 16(b) of the Duval County Development Order as follows:

**Greenway.** The Nocatee Greenway is shown on the Master Plan, Exhibit 2 (the "Greenway"). The Greenway shall be placed under conservation easements in the form required by the St. Johns River Water Management District in phases as part of the ERP Permit for portions of the Nocatee project. The first conservation easement for the initial portion of the Greenway shall be conveyed not later than 180 days after the Commencement Date. The Greenway shall be subject to a Greenway Management Plan, to be approved by the District as part of the ERP Permit. The proposed Greenway Management Plan shall be provided by the Developer to the Planning Departments of the City, St. Johns County, the Northeast Florida Regional Planning Council, and the Florida Fish and Wildlife Conservation Commission when it is submitted to the District during the ERP Permit application process for their review and comment, provided that the District shall be responsible to finally determine the terms of the Greenway Management Plan. Allowable uses of the Greenway shall include conservation, passive recreation, drainage features, silvicultural activities designed to achieve conservation objectives (including prescribed burns), road crossings, utilities, and limited parking for users of the Greenway. The precise boundaries of the Greenway may be adjusted at the time each conservation easement is conveyed to the District, provided that the total acreage of the Nocatee Greenway (in St. Johns County and the City of Jacksonville) shall be not less than 4,964.981 acres and include at least 960 acres of uplands at buildout. Vegetation bordering the Greenway may be trimmed, consistent with the Nocatee Greenway Management Plan, to control or eliminate exotic vegetation and to control understory growth to reduce the risks of wildfires.

D. Modify Section 30 of the St. Johns County Development Order as follows:

The Developer shall convey, free and clear of all liens and encumbrances, (i) a library site containing up to five (5) net developable acres and (ii) a county annex site containing up to one (1) net developable acre to St. Johns County within the Town Center Village or other mutually acceptable location and at a time mutually acceptable to when requested by the County and the Developer, but no later than the beginning of Phase II. The Developer will either provide stormwater treatment through a centralized stormwater treatment system located off-site or will convey additional acreage upon which a sufficiently sized stormwater treatment area for these sites may be located.
(a) By the end of each Phase, the Developer shall have constructed and opened for use within St. Johns County neighborhood and community parks in the following amounts: (1) during Phase I, 89.82.5 acres; (2) during Phase II, 36.33.3 acres; (3) during Phase III, 46.42.6 acres; (4) during Phase IV, 48.44.4 acres; and (5) during Phase V, 54.47.2 acres, for a total of 270.250 acres. Of these acreages, at least 120 acres shall be neighborhood parks and 150 acres shall be community parks, with the remainder in neighborhood parks. Park improvements may include recreation facilities such as tennis and swim centers, athletic complexes, playgrounds, community centers, trails, public parks, and squares, and passive parks and do not include the Nocatee Greenway and Preserve. Neighborhood and community parks will be constructed simultaneously with residential development within each Phase. The Developer shall seed and grade each park, and provide for sufficient parking for the community parks. The Developer shall be responsible for providing any park improvements such as ballfields, playgrounds, etc., as determined necessary by the Director of the St. Johns County Department of Parks, Recreation and Entertainment.

* * * [no change to remainder of section]

E. Modify Section 32 (a) (2) of the St. Johns County Development Order as follows:

(2) During Phase II of thereafter, one site within the eastern edge of the Town Center Village south of C.R. 210 northeastern portion of Oak Hammock Village (North), east of Davis Park, for a high school;

F. Modify the Greenway acreage listed in Section 17 of the St. Johns County Development Order from 4,961 acres to 4,981 acres, consistent with the change to Section 16(b) above.
