Amendments to RiverTown DRI Development Order

General Condition 3. Phasing, Build-Out and Expiration of DRI. The DRI will be developed in two (2) Phases, as described in the Development Information Table attached as Exhibit 10. Phase I will last six (6) years and Phase II will last five (5) years unless extended pursuant to Section 380.06(19), Florida Statutes, (2003), or unless the Developer elects to accelerate the beginning date of Phase II, provided that all mitigation requirements for Phase II have been met. The end date of Phase II will not be affected by an acceleration of the beginning date. Unused development rights from Phase 1 will carry over into Phase II until build-out. Physical development of the DRI will commence within three (3) years of the Effective Date of this Development Order. The projected build-out date for all development is December 31, 2027. The DRI termination and DRI Development Order expiration dates are established as December 31, 2032. Any extensions of the DRI build-out, termination or expiration dates will be governed by the provisions of Section 380.06(19) (c), Florida Statutes (2003). The time period for commencement of physical development and the time period for build-out and termination will be tolled during the period of any appeal pursuant to Section 380.07, Florida Statutes (2003), or during the pendency of administrative or judicial proceedings relating development permits.

General Condition 7. Downzoning Protection. In accordance with Section 380.06(16), Florida Statutes (2003), the RiverTown DRI, as approved in this Development Order will not be subject to downzoning, unit density reduction, or intensity reduction before December 31, 2032, unless the Developer consents to such change, or the County demonstrates that substantial changes in the conditions underlying the approval of the Development Order have occurred or the Development order was based on substantially inaccurate information provided by the Developer or that the changes clearly established by County are essential to the public health, safety, or welfare.

Special Condition 22(a) (i). County Road 223. See Special Condition 22(a) (iii) below.

Special Condition 22(a) (iii). County Road 223. The Master Developer shall cause to be conveyed or dedicated by plat to St. Johns County, a 130 foot wide right-of-way sufficient for a four-lane divided urban section from C.R. 210 to Longleaf Pine Parkway. The Master Developer, its successors and assigns, will pay for and/or cause the construction of C.R. 223, a four-lane divided urban section roadway within the 130 foot wide right-of-way described above as shown on Exhibit 8 to be commenced prior to approval of a Final Plat or Building Permit, whichever first occurs, for more than 2,392 units in Phase 1 (>92%) (except construction trailers and model homes) and completed within two (2) years or prior to the first plat or building permit approval, whichever first occurs, of Phase 2. Commencement shall be defined as actual physical construction under an approved modification of construction plans for a four-lane facility. Completion shall be defined as approval of As-Builts for the modification to construction plans.
This improvement has an allocated cost of $21,404,655 in 2004 Dollars. Also, prior to issuance of building permits for vertical construction within Phase 2 of RiverTown (except construction trailers and model homes), the Developer will provide financial assurance to St. Johns County in the form of a bond, letter of credit, three party agreement or funded commitment from a Community Development District that the improvement will be completed within two years of commencement or prior to the first plat approval of Phase 2.

If the required roadway improvement referenced in Special Condition 22(a)(iii) is made by an entity other than the Master Developer, its successors and assigns, the Master Developer shall pay to the County an amount equal to the allocated cost on the date the applicable improvement is required to be bonded, as indexed per the provision of this subsection, using the Southeast Construction Cost Index.

**Special Condition 25. Recreation and Open Space.** As shown in Exhibit 2, the Developer will provide a 58 acre Riverfront park, 86 acres of neighborhood parks, and a 100 acre community park. Prior to issuance of any building permits for vertical construction within RiverTown (other than vertical construction associated with parks and recreation, construction trailers and model homes) Developer will commence development of the Riverfront Park within RiverTown. Developer will commence development of the 100 acre community park at the time the first certificate of occupancy is issued for a residential dwelling (with the exception of model homes which are permanently occupied). The community park improvements will include, at a minimum, 4 baseball fields, 4 multi-use fields, adequate parking for the fields, entry roads, adequate conduit for future lighting of the fields, bathroom/concession facility and picnic areas. These improvements will be completed no later than October 31, 2017. Completion is defined as approval of As-Builts for the remaining park improvements. The Applicant will coordinate with the County parks and Recreation Department and County School Board to locate community parks adjacent to proposed school sites, when feasible, in order to meet collocation criteria set forth in Section 163.3177(6)(a), Florida Statutes.
